Come experience **the Shamanic Breathwork™ Process**, a powerful healing process that inspires individuals to remember and reconnect with their own inner healer. As old wounds and dysfunctional patterns are released and transformed, individuals begin to regain lost soul parts and remember the magic of who they truly are. Empowerment brings wholeness and healing back into their lives, to the lives of those they love, and to the world at large.

This process is highly experiential and the wisdom and healing gained comes from each individual's inner experience. Shamanic Breathwork™ honors and blends the timeless wisdom of ancient traditions with the emerging new paradigm methods of healing and teaching. It functions as the rainbow bridge between these two worlds honoring the best of both worlds while creating a bridge for body, mind, heart, and spirit.
